Intermetal Ltd. is part of Harwal Group, an intuitive, innovative and agile management holding with diverse manufacturing companies in the United States. Europe, the Middle East and the former Soviet Union. The technological and manufacturing capabilities of the Group are evident by the wide product range and volumes that are produced by the Group companies. With an annual conversion capacity of over 200.000 metric tons of plastic and 20,000 tons of aluminium and steel, the Group is at the forefront of its respective industries.

Interrnetal has been designing and manufacturing superior Hospitality Contract Furniture since 1989. As a specified supplier to many prestigious hotel chains worldwide, the growth of the company is attributed to quality manufacturing and resilient products.

The comprehensive Banquet and Conference furniture collection includes: stacking aluminium chairs, folding tables, conference tables, conference seating, buffet units, staging systems, dance floors and accessories manufactured from the finest raw materials that integrate style, comfort and functionality. Our product line includes contemporary designs and updated classics.

At Intermetal, our highly experienced in-house Design Team is constantly exploring new shapes, finishes and manufacturing methods to create innovative and flexible solutions that make a lasting impression and meet the demands of designers, consultants, owners, operators and guests. A dedicated management team, a diverse workforce and skilled craftsmen work in unison to provide furniture solutions which exceed our customers' expectations.

Intermetal's state-of-the-art manufacturing facility covers over 40,000m2 and is fully equipped with CNC Bending and Routing Machines, Robotized Welding, Powder Coating and Chrome Plating Lines, Advanced Woodworking and Upholstery. With the ability to monitor all areas of production, Interrnetal can guarantee timely deliveries, quality and durability.

As an ISO 9001:2008 Certified Company, management's commitment to innovation, research and development and sustainability has placed Intermetal at the forefront. Our finished products speak for themselves and reflect Intermetal's commitment to excellence.

# jazz |

A sleek, slim shaped contemporary chair design that is suitable for conference, meeting or banquet room settings. Constructed from a special extruded convex aluminium profile, the moulded plywood's linear shape adapts well to the body and provides the user with extremely comfortable seating. The clean silhouette makes it the perfect fit for any environment and a chair that truly expresses that "less is definitely more". waterfall s. stackable

# verona collection

The Verona Chair Collection pays homage to an era gone by combining classic elegance with modern day chic. Comprising of four styles, each chair is manufactured from a sturdy full cast aluminium base that is fitted with a sculptured seat and back and powder coated in a mahogany finish. The Verona Collection guarantees unparalleled comfort as each chair back gently flexes while seated. Phenomenally strong and visually appealing, the Verona Collection can be specified with confidence.

#### alulite collection

The Alulite Chair Collection from Intermetal has been manufactured using a special triangular aluminium profile. As the name suggests, the aluminium chairs are light in weight, yet deceptively strong in stature. A versatile collection that is easy to move, easy to set up and easily stored as the chairs stack 10 high.

# vita collection

The VITA Mesh Back Chair with top grip is the ideal choice for Conference, Banquet and Meeting Rooms. Each chair is fitted with breathable fabric, comfort seat and body responsive backrest which will guarantee hours of comfortable seating. Suitable for heavy contract use, this stackable collection has a slender top grip allowing for easy handling and movement while giving an aesthetically appealing look to the chair. This vibrant collection is available in a variety of frame finishes and the client can be creative by selecting fabrics from Intermetal's extensive fabric collection.
