A modular series of housekeeping trolleys with three different base sizes - 50, 70, 90 cm length - and the common feature of having four shelves for clean linen, the possibility to be equipped with side panels and a rear panel.

For dirty linen, a bag holder ring with canvas bag is fitted as standard and can be folded to save space.

To collect waste, a folding waste bag holder accessory is available and is fitted with lid, dividing panel and small bag support shelf.

Another folding bag holder with canvas linen bag or a folding waste bag holder with lid and bag support shelf can be added to any model in the range.

For 70 or 90 cm-long trolleys a top loading tray is available, with internal adjustable dividers, which can be either open or closed with a lid fitted with a lock.

The tubular stainless steel structure sits on a cherry wood-stained melamine base, with grey rubber bumper, to which the 15 cm-diameter plate-mounted castors are fitted, including 2 with optional brake, which guarantee excellent resistance to weight and smooth sliding.

This trolley was created for clearing rooms and was designed to offer maximum versatility and sturdiness. Various special accessories complete the piece and make it suitable for various uses.

The fully-welded sheet steel structure finished with epoxy powder paint makes this a solid and sturdy piece that can cope with particularly difficult work conditions, such as service lifts that are not perfectly levelled, uneven external floors, etc.

Anchored to the base are 16 cm-diameter castors - 2 fixed and 2 swivel castors with an optional brake. Alternatively, resilient castors or wheels with pneumatic tyres can be fitted and are ideal for outdoor use. The edge bumpers protect the trolleys from knocks and do not ruin furnishings.

As well as a base panel, the internal compartment has 2 height-adjustable shelves and if requested, can be fitted with lockable doors.

When the trolley is not in use, all the accessories can be folded to save space.

Furthermore, a tray for amenities with adjustable internal dividers is available and can be placed on top and can be either open or closed with a lockable lid.

A maximum of 3 black PVC bins can be placed on the side of the trolley.
