Domino

Domino is a completely new concept in modular buffet system. **All the Domino components can interlock or stand alone.** Simply connect components to build your designed buffet. When tomorrow comes build it again or try something new.

Let your imagination design your Buffet. The system is so simple, a child can do it. Simply put, Domino makes it fun again!

- Domino is made from food grade 18/10 Stainless steel.
- Built and design to endure the abuse of a commercial operation.
- Domino heated components can use caned fuel or electric.
- Domino's easy lock & unlock leg system makes it simple to change height.
- No tools or complicated instructions.
- Simply insert and twist.

The base modules consist of 3 sizes:

- 25 cm (9.75") square
- 35 cm (13.75") square
- 62x35 cm (24.25" x 13.75") rectangle

Each base unit is 9 cm (3.50") tall. The unit can simply share legs or the height can be increased by 9 cm (3.50") increments to create beautiful high and low horizon on the buffet scene.

To add a leg/height just insert and twist. No tools required.

You build it and they will come.
