FOR PERFECT KITCHENS, PERFECT EQUIPMENTS

For the restaurant and food service industry, over 25 years **Kapp** has been one of the leader manufacturers of professional cookware and kitchen utensils.

Based in Izmir Turkey the company's facility is spread across 25.000 sq. Meters.

Manufacturing Equipment, Research and Development and Quality Testing Procedures are impressive infrastructure of **Kapp**.

Constant evaluation and expansion has always been the target for the company.

The unbeatable quality with **Life Time Guarantee of Impact Bonded and Induction Ready** pots and pans has made the brand, a reliable reference for all professionals involved in the restaurant and catering business.

Each year **Kapp** is expanding its range both in manufactured and complementary items.

Customer satisfaction is the major issue which is backed up with quality, fast response and performance.

Along with the distribution channels throughout Turkey **Kapp** is also distributed in 45 countries around the world from Europe to Middle and Far East, North and South Africa, United States and South America.

Cooking

TECHNICAL SPECIFICATIONS

Made of high-quality, robust 18/10 stainless steel pots and pans are designed for long run in hard conditions of Professional Kitchens.

Three layers base of each product is compressed with the IMPACT BONDING® method at a high pressure which results with the non separable layers and even heat distribution.

Handles are tack welded up to 10 points for the strongest holding.

Easy to grasp stainless steel stay-cool handles

Extra helper handling at sizes over Q 32, a special design for Professional use only.

Suitable to all kind of stove tops including Induction*

Dishwasher safe

*KAPP stands out with "IMPACT BONDED" three layer sandwich bottom in all lines and sizes.

*KAPP is the only brand which offers "induction ready" cookware in ALL sizes.

DESIGN

-Perfect balance and ergonomy

-Pure sophistication

-Perfectionist approach in every single detail

QUALITY

KAPP products are extremely robust. Tried and tested up to the highest standards. By leveraging our strengths in product design, packaging and distribution, we provide unique, innovative solutions for Professional Kitchens.

KAPP products are manufactured by means of extensive production processes and only delivered after strict quality controls.

All the procedures are monitored by our Quality Management System which is certified by TUV, GOST, HACCP and CE internationally.

"The Great Lake Culinary Institute Laboratories" in USA, tested and approved our quality and classified KAPP products within the best quality product ranges in the world.

Three layer base of each pot is compressed with "IMPACT" method at a pressure of 2500 tons.

IMPACT BONDING + INDUCTION READY

IMPACT BONDED BOTTOMS COOKS BEST. CERTIFIED NATIONAL INDEPENDENT TEST RESULT

- Forged to bond by press over 2500 tons.
- Purity of aluminium over 95%.
- Over 99% of bonding between 3 layered bottom

- Brazed to bond by brazing machine.
- Purity of aluminium normal.
- Over 55% of bonding between 3 layered bottom

Excellent
Even cooking
Even temperature
Easy to clean

Food sticks and burn
Uneven temperature
Difficult to clean

Food sticks and burn
Higher heat
Extremely uneven
Very difficult to clean
Probably will damage the pan

Wide Shallow Pan w/o Lid

Cast Iron Pots

Perfect Match of Cast and Enamel

- Coated by three times enamel which prevents the creation of bacteria
- Because of the special concept of vapor binding cover, it prevents lacking vitamins and minerals
- It absorbs heat rapidly and protects it for a long time
- Energy saving is provided by perfect thermal conductivity and balanced heat distribution
- Cut and scratch resistant surface provides the convenience of using metal equipments
- It is suited for every type of stoves and ovens
- Non - stick, easy to clean

GN Adjustment Bar

Polycarbonate GN Pans

- High impact resistance, unbreakable
- No corner and border deformation due to high impact resistance
- High acid-proof, impenetrable
- Heat endurance between +100C / -40C
- Suitable for microwave oven
- Stackable one within the other
- Light, easy to carry
- No hazardous substances on human health
- Easy to use due to the transparent structure
